Benefits of Writing as a Human Author.

PUBLISHERS know human books retain long-term value.^{1,2}

Publishers and agents are more likely to represent, publish, and promote your work if it's certifiably human-created. Your real human work can also be copyrighted.

READERS want human stories; fans rate human more highly.^{1,3}

Stand out as a genuine human and protect your work from AI theft. Distinguish it with the registered, licensed Humanright™ mark.

Mission

Human Intelligence® believes that:

- Humans Create. Machines Imitate.
- We deserve real art.
- Real Art has value.
- You own your art.
- Together, we can fight back against AI.
- You can join our movement – *today!*

Technology: Reliable Authentication

The Human Intelligence® system focuses on provenance; our tools discern tell-tale signs and attributes unique to human writing, allowing us to reliably identify your work as a human creation, using our proprietary and protected Chain of Creation™. Our work protects your rights.

Endorsements and Partnerships

Human Intelligence® has been endorsed by a variety of writers groups and associations, including national writers' groups such as Clarion West, Willamette Writers, OLY ARTS, and by Bookshop.org and LitHub founder Andy Hunter.
